

FALSE LASHES WITH VICTOR

STEP 1 OF 9

Remove the lash carefully with tweezers from the container to ensure the lashes retain their shape. Measure the false lash to the eye. The lashes can be trimmed if needed (from the outside longest portion) with MAC safety scissors. Curl the lashes.

Lash Curler

STEP 2 OF 9

Apply a generous coat of mascara.

Pro Lash

STEP 3 OF 9

Apply a thin black liquid eyeliner to disguise where the natural and false lash meet.

Fluidline
 266 Small Angle Brush

STEP 4 OF 9

Blacken the lash band to help the lash band blend in with your natural lash line

STEP 6 OF 9

Bend the lash to mold it into the proper shape and for easier application.

- 36 Lash

STEP 7 OF 9

Apply false lash (laying down the center first and then securing the ends. Use the end of a brush to push the lash down onto the lash line prior to the adhesive completely drying.

- 36 Lash

STEP 8 OF 9

Adjust the lash with the eye open by 'fluffing up' or pushing down until both are even.
